Why partner with Sundaf Trip

- Small group sizes of 10-20 pax per departure, ideal for focused, well-coordinated ground arrangements.
- We bring our own tour leader, so your team only needs to handle logistics and ground operations.
- Growing Indonesian outbound travel market with strong demand for affordable Europe packages.
- Long-term partnership mindset: we are looking for a reliable DMC to grow with, not one-off deals.
- Professional operations: structured itineraries, clear communication, and on-time coordination.

Working with DMC partners

1. Itinerary Planning

We share our desired route, destinations, group size, travel dates, and budget range. We welcome your suggestions for optimizing the itinerary based on local knowledge.

2. Quotation & Agreement

DMC partner provides a detailed quotation covering hotels, transportation, meals, and attraction tickets. We review, negotiate, and confirm.

3. Pre-Trip Coordination

Final rooming list, dietary requirements, and any special requests are shared 3-4 weeks before departure. We confirm all arrangements and emergency contacts.

4. On-Ground Execution

Our tour leader manages the group. DMC partner handles local logistics: driver, hotel check-ins, restaurant reservations, and any on-the-ground issues.

5. Post-Trip Review

We share feedback from our travelers and discuss improvements for future departures. Strong partnerships are built on continuous communication.

What we look for in a DMC partner

- Competitive group rates for 3-star hotels in city center or well-connected locations.
- Reliable coach / minibus transportation with experienced drivers.
- Meal arrangements, flexible between restaurant bookings and self-catered options.
- Attraction tickets and skip-the-line access where available.
- Transparent pricing with clear inclusions and no hidden costs.
- Responsive communication, ideally via email and WhatsApp.
